MOCHARA OR CAFÉ DE SANTÉ.

MOCHARA, the pure produce of finest ripe figs, roasted and powdered, known as "COFFEE OF HEALTH," has long been used in the East as a supplement for mixing with Coffee. It imparts to Coffee that beautiful dark brown, yet transparent colour, mellow flavour, and rich body so much admired in FRENCH COFFEE.

MOCHARA neutralises the heating properties of Coffee, and is recommended by Medical Authorities as a remedy against indigestion and costiveness (if used in larger proportions), the sanative properties of figs being well known. Must not be compared with common Chicory.

MOCHARA, to improve even the best Colonial Coffee, which is empty and watery without it, may be mixed to the extent of 10 to 20 per cent. to 1 lb. of pure Coffee, according to taste. For nervous persons, invalids, and children from 25 to 50 per cent. with MILK FREELY used, Condensed Milk preferable, if good country milk or cream cannot be obtained.

MOCHARA, if well stored and kept dry, the air carefully excluded, will keep for any length of time; at least some years.

MOCHARA is sold wholesale per lb. in 1-lb. Tins, 9*d.* (1*s.* retail); in 7, 14, and 28-lb. Tins, 8½*d.*; in original barrels of 2 to 4 cwt., 8*d.* including 2*d.* duty paid.

IN BOND, in 1-lb. Tins, 7*d.*; in 7, 14, and 28-lb. Tins, 6½*d.*; in original barrels, 5½*d.* by ½ tons; 5*d.* by larger quantities, 7, 14, and 28-lb. Tins, charged 6*d.*, 1*s.*, 2*s.*; barrels free.

Liberal Terms to Wholesale Houses, Shippers, and Agents. Sample Tins for 10d. free by Post (i. e. in England). For further information, apply to

THE MOCHARA COFFEE COMPANY,

60, Watling St., E.C., London, England.

☞ MOCHARA IS WARRANTED FREE FROM CHICORY.

SEYDELLS' POCKET ASHANTEE HAMMOCK.

A luxurious BED, COUCH, SEAT, and other commodities combined in ONE Article, weighing about 1½lbs., easily carried in Coat Pocket, of great Strength, bearing the weight of half a dozen Adult persons (temporarily even 12 cwt.) without breaking, and fixed in a few minutes wherever the simplest means of support exist.

In Climates and Countries where Hammocks were almost unknown hitherto, it has speedily become a regular Garden, Domestic, and Travelling Requisite.

It makes a most suitable *bed for the sick and wounded;* being highly elastic, it supports every part of the body evenly and completely, and the rest in it is surprisingly *enjoyable and refreshing;* in cases of spinal curvature it has also proved of curative value.

Being so exceptionally perfect a means of making vibration or jolts unfelt, it is worth considering whether the accommodation of travelling in these Hammocks on Railways should not be offered to the general public. For a night journey, or in the case of nervous or aged people, or to prevent the ill-effects of constant Railway Travelling, or to counteract shocks resulting from collisions, no more suitable or efficient means of repose exists; by using the Hammock, many people will be able to travel whose state of health would not allow it before.

It enables to avoid restin on *damp ground*, and to escape the evils attending it, such as *Colds, Fevers, Vermin, &c.*

Its *airy construction* makes it particularly acceptable in *hot climates.*

It is exceedingly useful to *Excursionists, Engineers, Surveyors, Explorers, Diggers (especially when prospecting), &c.*, and wherever a sudden conflux of people makes beds scarce, as sometimes at fashionable Seaside Resorts, places of Pilgrimage, &c.

Emigrants will find it to meet a great want, both on Board Ship and on land, before they reach or fit their new home.

It cannot fail to prove a great boon to the Soldier, Volunteer, &c., camping out.

These Hammocks were largely ordered *by the English War Authorities* for *Hospital and General Army and Navy use during* THE ASHANTEE EXPEDITION. And further specially recommended by them to the officers "AS A VERY USEFUL ADDITION TO THEIR OUTFIT."

Their extraordinary Strength, expressive of PERFECT SAFETY, combined with such small bulk, was only attainable through well adjusted Construction and good Workmanship, and the use of the VERY BEST MATERIAL for the purpose. This material, a superior new Fibre, has, after many experiments, been found in the particular cord introduced and SOLELY USED by the PROPRIETORS.

The breaking of any one Cord will leave the other parts of the netted Hammock intact and as strong and well secured as they were before; any damage can easily be repaired with a piece of string.

The CASE, which admits also of use as a Luncheon Case, Sponge Bag, Bathing Toilet Case, &c., or (the smaller sizes) even as a Cap, has for the netted Hammocks, a strap attached to it for wearing over shoulder, and is provided with two Pockets for the Hooks or other use. Tourists and Colonists particularly will appreciate these qualities.
